REPORT OF SCHOOLS

AS MADE OUT FOR THE YEAR BY SUPT. COOPER.

TEACHERS PAID MORE

The Average Salaries for Teachers Increased $10 a Teacher—4 New School Houses Built.

The report of the schools of Nodaway county as made out by County Superintendent Bert Cooper for the year ending June 30, 1916, shows some interesting things. One of them is the increase in teachers' salaries over the previous year. The average salaries of teachers per month for this year was $61.84 as compared to $51.77 for the previous year. This year's average shows that the male teachers received $70.32, while the female teachers received $53.36.

The total enumeration is 8,106 as compared to 7,946 last year. The total enrollment is 6,717. There are 3,388 white males, 3,303 white females, 14 colored males and 12 colored females.

The number of districts having less than 15 pupils was 30; 15 pupils and less than 25, 75; 25 and less than 40, 47; 40 and less than 60, 8; more than 60 pupils, 15.

The number of school houses built during the year was 4.

Schools having six and less than eight months term were 28; having 8 months term were 122; having more than 8 months were 23.

The number of pupils that may be seated in the public schools, 9,860.

Libraries are had in 175 school districts, and the total number of volumes in these schools are 38,343, and the value of these libraries is $16,542. The volumes added during this year was 4,064.

The number of teachers employed was 254. The number of school houses in the county is 183, one school house being for colored children. The estimated value of the school sites and buildings is $425,000, and the school equipment, libraries, furniture and apparatus is estimated at $48,000.

There are only two school houses valued at less than $300; 36 valued from $300 to $600; 120 valued from $600 to $1,000; 25 valued more than $1,000.

The grand total receipts were $225,927.32, while the grand total payments, all purposes, were $181,066. Of this amount $94,877 was paid out to female teachers, while $23,262 was paid out to male teachers.

LIFE-LONG REPUBLICAN

Says Times Are Too Serious for Party Division and Praises Phesident's Mexican Policy.

Special to The Democrat-Forum.

Saratoga, N. Y., Sept. 5.—Thomas A. Edison, inventor, life-long Republican and a strong supporter of Theodore Roosevelt's candidacy for the Republican nomination, made announcement today of his intention to vote and work for Woodrow Wilson. He dictated the following statement:

"Not since 1860 has any campaign made such a direct call on simon-pure Americanism. The times are too serious to talk or think in terms of Republicanism and Democracy. Real Americans must drop parties and get down to fundamental principles.

"More than any other president in my memory Wilson has been faced by a succession of tremendous problems any one of which decided the wrong way would have had disastrous consequences. Wilson's decisions so far have not got us into any serious trouble, nor are they likely to.

Praises Mexican Policy.

"He has given us peace with honor. This talk about the United States being despised is nonsense. Neutrality is a mightly trying policy, but back of it are international law, the rights of humanity and the future of civilization.

"With reference to Mexico I think the president has acted wisely, justly and courageously. It was right that the United States should not have recognized such a murderous personality as Huerta. I do not believe that we should have intervened, nor do I believe that we should intervene now. Mexico is a troublesome neighbor just now, but war and conquest are not going to make her a better one Both against England and against human

Wallace Crossley, Democratic nominee for lieutenant-gavernor, has impressed the people of the state by his clean-cut ability and force. Then, too, he is a fine campaigner.

Frank McAllister, roly-poly nominee for attorney general, in whom popularity and efficiency meet, can be most serious when occasion requires. Just now it is the serious business of showing how far he can distance his opponent in the race.

Regarding the Democratic nominee for secretary of state, the Caruthersville Democrat says: "John L. Sullivan is some campaigner. He went and saw the voters personally and won them over by his engaging personality and evident sincerity. Sullivan will win in a walk this fall and will make an efficient secretary."

John Gordon, who received more votes in the primary than his two competitors combined, will turn around and walk right back into the state auditor's office in November.

George Middlekamp, nominee for state treasurer, hasn't much more opposition than he had in the primary. And that was nothing. He is a wheelhorse for work, a Democrat of the highest character, and he will breeze in.

SUFFRAGE SISTERS TO ATTEND CONVENTION

Among the delegates to the convention of the National American Woman Suffrage association at Atlantic City, Sept. 6 to 10, will be two pairs of suffrage sisters. They are Mrs. Norman de R. Lightweight Champ Proclaimed Winner After Twenty Rounds of Slow Fighting.

Special to the Democrat-Forum.

Ringside, Colorado Springs, Colo., Sept. 5.—At the end of twenty rounds of fighting, Referee Billy Roche yesterday afternoon awarded Champion Freddie Welsh of England the world's title. While the crowd evidently figured the challenger, Charlie White of Chicago had a slight edge throughout the bout, the champion's friends went into a frenzy of delight when his hand was lifted in the air as a token of victory. The men were in clinches two-thirds of the time and there was but little clean open boxing.

FOR SANITARY MILK

PURE, CLEAN PRODUCT NEEDED FOR CHILDREN AND GROWN-UPS.

Cows Must Be Kept Clean to Prevent Disease—Signs of Tuberculosis Should Be Looked Into.

Pure, clean, sanitary milk is necessary for babies and very important in the health of children and grown-ups. During this summer season, when infantile paralysis, or other diseases which may be transmitted through the milk supply, it is especially important to patronize only those whose premises are carefully kept in accordance with the best methods prescribed by the inspectors. No change should be made from a supply that has been giving good results unless there is reason to believe that the new supply will be distinctly better.

Fortunately cows are subject to but few diseases that are dangerous to milk users. If a cow appears to be in good health and has no indications of udder inflammation, she can be counted on to give wholesome milk provided she is free from tuberculosis. The only way to be sure she is free from this disease is to have her tested by a competent veterinarian.

To keep dirt and bacteria out, the cows must be kept clean, especially in the region of the udder. The milk should be drawn into a covered pail which is thoroughly washed and scalded after each milking. Only good clean water should be used for this purpose.

No matter how careful milk is produced, difficulty will be experienced in keeping it sweet if it is not kept cool until consumed.—Percy Werner, Jr., Missouri Agricultural Experiment Station.

EDISON FOR WILSON

(Continued from page 1.-

slavery, the United States worked out its salvation through revolution, and it was a pretty slow, trying process.

"It has been said that Wilson was at first against preparedness. Perhaps he was, but when convinced that intelligent public opinion was overwhelmingly in favor of it, he changed. That is the proper thing for our president to do. A president defiant of public opinion would be a dangerous man in our system of government.

Commends Rail Strike Work.

"His attitude on the tariff shows an equal openness of mind. A tariff commission will take the whole problem out of politics. It is my hope that experts will be named, and that the body will be continuing and vested almost with the dignity of the supreme court.

"They say he has blundered. Perhaps he has. But I notice that he usually blunders forward. You can't get 100 per cent efficiency in a democracy; I don't know that we ought to want it. We would be machines and we would have to sacrifice too much of freedom.

"As I said at the start, it has been just one big thing after another with Wilson. I have never known so many dangerous questions brought up for decison to any one president. In the threatened general strike of the skilled railway men, which, if carried out, would have thrown the whole country into confusion, and proven a calamity that, in certain eventualities, would have results bound to extend over a long period of time, he acted with his usual courage and sanity.

Hughes Best on "Hindsight."

"In my opinion Mr. Hughes, if president, would find it difficult to decide on the best course for the government to take regarding the strike. His capacity for hindsight, as we learn from his speeches, is highly developed, but as to his foresight, we are equally well informed.

"Mr. Wilson has had about four years of experience, and he has earned faith and trust. I do not think it a logical or sensible thing to change to an inexperienced and untried man just for the sake of change, or without much better reasons being given for the change than I have noticed.

"Roosevelt was my choice. He has had experience and is one of the best of Americans, but the machine-controlled Republican party would not have him. Therefore, I am for Woodrow Wilson."

Big Chorus Rehearsal This Evening

The first rehearsal of the chorus for the big Scoville Union Meeting which will begins next Sunday morning will be at the CHRISTIAN CHURCH at 7:30 THIS EVENING.

In the short time for preparation the committee has been unable to see a limited number only, so if you can sing, they want you to feel it your duty to report at the Christian Church this evening at the hour named for enrollment in the big chorus.

A Time When Your Talents Are Needed

You don't have to be a professional to belong to the chorus. A fair voice and a willingness to put it in service during the meeting is all that is necessary.

Don't wait for an invitation from the committee or anyone else. Take it on yourself to report for the first rehearsal this evening.

Members of the chorus are always sure of seats during the big meeting and it will be to their advantage in various ways to be one of the 400 voices. The musical training will be worth while.

Be There This Evening.

MRS. MARY OCKER, 78, DIES

Aged Woman Had Been Ailing for Some Months—Funeral Services Held Tomorrow.

Mrs. Mary Catherine Ocker, 78 years old, died at the home of her daughter, Mrs. Pearl Logan, at 8:30 last night. Mrs. Ocker had been ailing all summer but was only confined to her bed for one week. Her death was due to paralysis.

Mrs. Ocker was born in Illinois, and before coming to reside with her daughter in Skidmore 14 years ago, at the death of her husband, lived in Holt county. She is survived by her daughter, Mrs. Logan, and by two sons, H. S. Ocker, living in McLouth, Kan., and W. M. Ocker, living near Maryville. She has a sister, Mrs. James Hammond, living in Maryville.

The funeral will be held at 10 o'clock tomorrow morning from the Logan home in Skidmore. The Reverend Frame, a United Brethren minister, will hold the funeral service. Burial will be in the Maitland cemetery.

"PENNINGTON'S CHOICE."

At the Empire Tomorrow Night With Francis Bushman and Beverly Payne.

Francis X. Bushman and Beverly Bayne, who are probably known to more motion picture lovers than any other stellar combination on the screen, will be seen in "Pennington's Choice," a Quality Pictures Corporation production just released on the Metro program, when it is presented here at the Empire theater tomorrow night.

"Pennington's Choice" is a thrilling and dramatic tale of the Canadian northwest. Mr. Bushman's portrayal of a wealthy New Yorker, who is obliged suddenly to quit a life of leisure and prove his courage and manliness in the Canadian wilderness to win the girl of his heart, is one of the best performances he has ever given. Miss Bayne has an equal opportunity to display her fascinating dramatic talents in a role that carries her from the drawing room of the metropolis to the wild life of a care-free hoydenish girl in the woods. There are many intense situations in the fastnesses of the northern wilderness and a novel love story is charmingly enacted.

Stuckle Will Filed.

The will of William P. Stuckle, who died at a hospital in St. Joseph last week and was buried at Conception, was filed in probate court today. It was written October 11, 1907, and was witnessed by Joseph J. Enis and Cora B. Enis. The estate is left to his wife, Rosa Stuckle, who is also named as executrix.

Chase-Lister Plays This Week.

Tonight the Chase-Lister company will play "The Church and Its People," a rural comedy in four acts. Thursday night will be the feature night of this week. The play for that night is "A Young Wife." Tomorrow night they will repeat by request their feature play of last week, "A Society Cracksman."

Asserting Her Authority.

Mrs. Saft came in from a chat over the fence with her neighbor, and her face was hard and red.

"Come here, Tommy!" she commanded her young son. "I am going to punish you, but open the windows first."

"What for?" said Tommy, beginning to weep.

"Well, I have just heard that that cat across the road said I have no authority over you, and I want her to hear you getting a whipping. Come here, sir!"—Chicago Herald.

FEVER DAILIES NOW

GREAT DECREASE IN NUMBER OF NEWSPAPERS SINCE 1909.

Weekly Publications Show Slight Increase—Here Are Percentages for the Last Six Years.

Special to The Democrat-Forum.

Washington, Sept. 5.—The bureau of the census, department of commerce, announced that the census of 1914 shows there had been a decrease in the number of daily newspapers, as compared to 1909, and an increase in the number of papers that issue less than six editions a week.

There was a total of 2,580 dailies in 1914 as compared with 2,600 in 1909. The aggregate circulation in 1914 was 28,436,039, representing an increase of 17-4 per cent. During the semi-decade a number of publishers of both evening and morning papers suspended publication, some consolidated and others went into the weekly, tri-weekly or semi-weekly field.

The number of Sunday papers published in the United States in 1914 was 570, as compared with 520 in 1909; and their combined circulation in the later year 16,445,820, represented an increase of 23.2 per cent as compared with the corresponding figure for the earlier year.

The number of weekly newspapers and periodicals reported for 1914, 15,166, shows a slight increase as compared with the corresponding number in 1909, 15,097. The 1914 circulation of such publications was 50,454,738, an increase of 23.6 per cent as compared with 1909.

There were also reported, for 1914, 84 tri-weekly newspapers, with an aggregate circulation of 549,495, representing increases of 15.1 per cent, and 63.8 per cent respectively, as compared with 1909; 583 semi-weekly papers, with a circulation of 2,483,629, representing a decrease of 8.2 per cent in number, together with an increase of 7.4 per cent in circulation, 2,829 monthly publications, with a circulation of 79,190,868, the percentages of increase in number and circulation being 13.2 and 25.1 respectively; 500 quarterly publications, with a circulation of 18,852,401, representing increases amounting to 83.5 per cent and 17.4 per cent respectively; and 442 other periodicals, with a circulation of 8,946,567, the percentages of increase during the five-year period being 21.4 and 118.5 respectively.

LAND BANK CLUBS FORMED.

Many Counties Are Organizing to Work for the Gardner Amendment to the Constitution.

Jefferson City, Sept. 5.—Gardner land bank county clubs are being organized all over the state today, announced A. T. Edmonston, secretary of the Gardner land bank state committee. Down in Stoddard county A. L. Biffle of Bloomfield, assisted by Reuben F. Jones, clerk of Stoddard county, have charge of the movement there. In Barry county a club was formed a few days ago by E. A. Frost of Cassville, with a membership of 48. The president is Claude Wiley, and the secretary, Albert Thomas, both of Cato. Mr. Frost, who is very enthusiastic, energetic and untiring in the work, wrote Secretary Edmonston that the members of the Barry County Gardner Land Bank club were deeply interested in rural credits and guaranteed that this county will go heavily for the constitutional amendment which provides the first working fund for the state bank, which is supposed to commence business at Jefferson City, December 1, 1916. Down in Ripley county, Glenn Glore and other prominent citizens, within a few days, will call a meeting of farmers to establish a Gardner land bank club there.

Literature dealing with the Gardner land bank act and giving full information concerning the proposed constitutional amendment, can be obtained free on application through mail from Secretary A. T. Edmonston, Gardner land bank state committee, Jefferson City, Mo.

That the land bank measure is entirely non-partisan and non-political is shown by the fact that in the state senate on March 19, 1915, when it came up for final passage 27 senators who were in attendance, including Republicans, voted for it, seven senators being absent.

When the measure passed the house, on March 11, 1915, it received 114 votes, 68 coming from Democratic representatives, and 45 from Republicans, and one from the only Progressive in the house, J. H. Summerville, representing Mercer county. The Republican senators who voted for the measure represented 102,039 Republican voters of Missouri, and thereby were acting for that number of Republicans. Representative Summerville acted for 1,083 Progressives.

WAS ARAB PRISONER

ENGLISH CAPTAIN RECOUNTS ADVENTURES OF 19 WEEKS.

Soldier in Hospital Sees Advantage in Having One Foot—Head of Military Force Scores One.

London, Sept. 5.—Captain Williams has just published an interesting account of the nineteen weeks spent by him and the survivors of his crew as prisoners of the Senussi in the Libyan desert after his ship was torpedoed by a German submarine in the Mediterranean.

"Facial expression," he says, "appears to be very limited among the Arabs and I soon fell into the spirit of the game by doing my 'tricks,' which generally got us a more liberal supply of food, the tricks being no more than assuming an expression of hauteur, superciliousness, contempt or vanity. These caused unfailing yells of laughter and had to be many times repeated, and after displaying my gold tooth, tattoos, medal ribbon and diary, the show was considered finished, and we were generally rewarded with dates and milk."

In another place he says the Arabs discussed removing his head as the best way of getting the gold tooth. "Civilized dental treatment always aroused great interest in this land of perfect teeth, and I well remember an occasion when Lieutenant Tanner put the whole of our guards to flight by opening his mouth and letting fall his upper plate of false teeth."

"Here is his description of the Arab etiquette of eating dates and milk:

"The large wooden bowl of milk goes from hand to hand, and you may only drink it with a loud indrawing of the breath; an exhausting process, but equalizing the amount you all get.

"Dates you eat as fast as you can, stoning them with one hand all the time, and it is de rigeur to throw back the debris in the bowl. I broke my best tooth trying to eat fast enough for my share, but never had a chance, though among my fellow prisoners I had at one time been very unpopular on account of the rate at which I bolted my food.

"Shoes you always took off and hats you always kept on. This annoyed me much in bed, where my feet were cold and my head hot, but there was no appeal.'

Mrs. Campbell, Honor Guest.

Brown-eyed Susans were used in profusion in the decorations at the Elks club last evening when Mrs. J. W. Toel and Mrs. Will Montgomery entertained at bridge in honor of Mrs. Walker Lee Campbell of Portland, Ore., who is the guest of her sister, Mrs. Will Wallis, Jr.

In the center of the room was a dining table decorated with a large bouquet of brown-eyed Susans. On the table were placed crystal candlesticks with green candles in them and tied with bows of green tulle. Around the dining table the eight bridge tables were grouped, and each one of these tables was centered with the brown-eyed Susans during the serving hour.

In the four corners of the hall stood jardinieres of brown-eyed Susans, placed on pedestals.

A two-course luncheon was served. The ice cream course was served from the dining table by Mrs. Will Wallis, Jr., Mrs. Walker Lee Campbell, Mrs. Ed Wolfert and Mrs. Arthur Brewer.

The game prize was won by Mrs. George B. Baker, and the guest prize was presented to Mrs. Campbell.

eral hills of corn in his field, and a danger signal is no longer necessary at this corner. We hope others will follow his good example until every dangerous turn in the roads will be remedied.

The spirited young driving team of Lawrence Nicholson became frightened while standing at the hitchrack in this city last Saturday night about 10 o'clock, breaking loose and running south on Third street, being stopped at the George Ulmer, Jr., residence, where the horses ran through a barbed wire fence, cutting themselves but slightly. They were hitched to a new top buggy and the vehicle also escaped with slight injury.

Marve Safely returned last week from the Clarinda fair as happy as a big sunflower, the Safely string of horses getting fifteen ribbons—nine firsts, two seconds, two thirds and two sweepstakes. Some of the horses will be seen at the Hopkins horse show Sept. 14.

Levi Daniels, a farmer residing north of Hopkins, is beginning to believe that the honest tillers of the soil are soon to have no show, as the grasshoppers are so thick they almost eat the shirt off a man's back while he is fall plowing and the ever-cunning fox is feeding on young turkeys raised on the Daniels farm—this species of the wolf being very plentiful up and down the 102 river and make frequent excursions to the hen roosts of nearby farms, no matter whether they are located on the ridge or in the bottoms.

Albert Prager of St. Joseph is the new baker at the Lewis restaurant, and comes highly recommended. Jake Haaf, who has been doing the baking at this restaurant, will go to Dakota in about ten days to visit a sister, and from there to Iowa to visit his mother. After that he thinks his time will be occupied looking after improvements he contemplates making on his farms near this city.

BURLINGTON JUNCTION POST.

The new channel of the Nodaway river will soon be bridged on the road northwest of town near the J. A. Tibbetts farm. It is planned to move the steel bridge across the old river near the Spangler place to the new ditch. This bridge has a 108-foot span and will make a permanent improvement. A short bridge with aprons will then be built to take the place of the steel bridge over the old river. The old channel above Mill Creek is filling up fast and in many places willows and brush are growing up in the bed. In a short time this will have its effect in checking a strong current should the river rise, and a smaller bridge will serve the purpose. The court assured the township board that they would be ready to do the work in the very near future.

The big traction engine belonging to C. D. Caldwell was taken from the ranch to the road east of Burlington Junction yesterady afternoon and the work of grading this road will be done at once. It is also planned to grade all of the roads within a radius of a few miles of Burlington Junction, or as much as the appropriation for that purpose will permit.

The Nodaway township board has received a number of inquiries concerning the bridge and culvert work that is now going on here and request the Post to submit the following for the information of its readers: In all there are 317 bridges and culverts in the township, 54 of which are county structures. This leaves 263 township culverts, including 37 places that have no openings, but should be supplied with tile or tube. Of the 226 remaining, 59 had tile or tube, which left 167 to build with the bond money. Up to last Saturday 81 had been built, and if the weather permits 35 or 40 more will be built this fall. The board reports all of the worst places completed; also that there would be more than enough funds to complete the work this year.

Five members of last year's graduating class have received certificates and will teach this year. Mary Yaple and Margaret Parker each received a second grade certificate. Madge West of the 1915 class also received a second grade certificate. Lima Rhodes, Katherine Miller and Orpha Carlisle of last year's class each received a third grade certificate. They will teach the following schols this year: Katherine Miller, Guthrie; Lima Rhodes, Quitman; Orpha Carlisle, Hedge College; Mary Yaple, Pleasant Valley; Margaret Parker, Hagey; Madge West, Evans.

The large force of men that are engaged in making the line from Burlington Junction to Maryville for the Maryville Electric Light & Power Co., are now working in the corporation, and just as soon as some extra material is received the line will be connected with the lights here and we will have 24-hour service. Manager Hellmers has pushed the work as rapidly as possible and is making the extension work permanent.

At its special meeting Tuesday night the city council passed an ordinance prohibiting the use of automobile cutouts in the city limits of Burlington Junction and the mayor requests the Post to publish the fact so that no automobile driver can claim ignorance of the law. Numerous complaints have come to the city authorities regarding the use of cut-outs, some saying that "smart" automobile drivers use them to "show off," at the same time blowing up smoke and dust and making themselves a nuisance. The ordinance was passed for this reason and the city marshal has orders to arrest every motorist operating his car in Burlington Junction with the cut-out open. The ordinance becomes effective at once.

The Beaten Path.

The following paper was read at a meeting of the W. C. I. of Burlington Junction by Mrs. Benjamin Booher:

How easy it is to trod the beaten path when on either side we observe the beautiful fields, the lovely flowers and, above all, the handiwork of God! How many afternoons have we taken the beaten path that leads to the home of some club members, where we have enjoyed the associations of the club circle and how willing and glad am I to travel where it leads me on.

And on this occasion as I started out to take the beaten path that led me into the home of a lively little "Fox." I did not travel with fear and trembling lest I be devoured, but with the joy and happy anticipation of devouring all the good things in store for me—the hearty "Welcome In," I was certain of receiving.

The lovely little den into which I was ushered was filled with the members and was the scene of a happy gathering. I welcomed with a thankful heart the greetings of all those present. And as I travel on, the inspiration always comes to me that the beaten path always leads on and up. That is why the far-off fields always look so young and green, and that is why it so easily leads us on. And I realize that to reach the utmost height of my aim in this work I must be a strengthening link in this chain of friendship, founded upon a rock that cannot move, and blended together with our mutual love. Also that I must take the path that leads men on to the next members as their turns may come. And what a welcoming awaits us! For have we not tread that path before, and there again the association and the uplift that I will receive if I grasp and just look for the good deeds in the members. If I follow the early instructions of a good Christian mother, and do unto all as I would that they should do unto me, I may be able to attain a height that I never before would have reached if it were not for this club association. I do not aspire to pass you on the way, but I shall be content to travel by your side.

I want to take the beaten path that leads me to your homes, where we can raise your voices in songs of gladness, where we can bow our heads in prayer, where we can enjoy a few pleasant hours this club organization affords, and then to take the beaten path home. Home is where the heart is, where our greatest love, our most pleasant smiles and our most endearing words are; it is a place where we can go in and close the door behind us and shut the world out. And then this same path leads the members with whom I have been traveling to my home. The door will be open, and I shall be so glad to return some of the good that I have been enjoying. And the same faces that I have grown to love will be there, and I want to travel along with you on the beaten path that leads us home to God.

SCHOOLS WILL HAVE EXHIBITS.

Missouri State Fair Offers Premiums for All School Work—Many Country Schools to Enter.

School work, starting from the time that the 6-year-old youngster is just learning to scrawl his name in big round letters; specimens of the work that the older boys and girls are doing in the grade schools, the efforts of the high school student and finally the work that is done in the state schools of higher education, the normal schools and the university will all be on display in the art building at the Missouri state fair this year at Sedalia.

The schools of the state are classified according to the number of teachers that are employed, so that the little school house in the country, that has only one teacher to teach all of the grades competes only with schools of the same class. The schools of the larger cities that have the latest equipment have been placed in a class by themselves, as they are expected to do more advanced work.

But the country schools have plenty of premiums to try for, and many schools have new pictures on the walls and new equipment in the play ground bought with the money that was won at the state fair at Sedalia.

There are premiums that only the country boy can strive for. Mounted collections of the various woods that grow in Missouri, collections of insects, models of farm machinery, all of these and many more are offered to attract the country student.

In the literary lines, prizes are offered for the best essay on how to raise corn, and for the girls, prizes for the best essay on the very practical subject of the best way to arrange the equipment of the farm kitchen.

The county that makes the best general display will be awarded the first prize of $30 and the second and third best will receive $20 and $10 respectively.

Alabama Child Labor Laws Go Into Effect.

Montgomery, Ala., Sept. 1.—Hereafter the employment of children under 14 years in mills and factories of Alabama is forbidden. Child labor laws, enacted by the last legislature, went into effect today. Enforcement of the new law rests with the state prison and cotton mill inspection department. Individuals or corporations who violate the law are subject to a fine of not less than $10 nor more than $100 for the first offense, and not less than $100 nor more than $500 for the second offense. The new law affects thousands of children working around the mines, factories and in the cotton mills of the state.

Johnnie Watts of Bolckow is visiting at the home of J. E. Davis, South Market street, and will attend the fair this week.

PARNELL SENTINEL.

In trying to separate some mules in different departments in Morgan's sale barn yesterday morning, one of the mules dodged into the office and out through a large plate glass. The mule was quite badly hurt, but it is thought it will get well. It is a three or four year old animal and a good one. The glass was broken in small pieces and it will probably cost $40 or $50 to get a new one.

The following old soldiers are attending the fiftieth annual National Encampment of the G. A. R. at Kansas City this week: Andrew Spire, G. M. Spoonemore, Alex Brashear, Thos. Wilson, R. F. Goff and Jerry Beatty. It may be the last one they will ever attend on this earth, and may they have a good time in Kansas City this week while attending this one

SKIDMORE NEWS.

Prof. and Mrs. E. R. Adams arrived Tuesday evening. They will live in Mrs. Garnett's house. Prof. Adams is superintendent of our school this year and if appearance counts the News thinks the high standard of the Skidmore school will continue to improve under his direction. Let all the patrons of the school help Prof. Adams and the rest of the teachers and it will be surprising how well and easy the pupils will get along.

Miss Etta Suetterlin fell as she was going up the steps on the porch last Monday and broke a bone in her right hand. The doctor was called and the bone set. She seems to be getting along real nicely.

BARNARD BULLETIN.

Word was received this week that Bernie Daniels and family were compelled to abandon their overland trip and continue their journey to Colorado by train on account of Mrs. Daniels' health. At Seneca, Kan., they sold their wagon and team and Harve Waugh started home. Mrs. Daniels became worse and they were compelled to make this change in their arrangements on her account.

Last Friday evening about three o'clock the volunteer bucket brigade was called into action to fight a small blaze at Grandpa Mendenhall's house. Short work was made of the fire, which had only a small start, and it was put out before doing much damage. A small hole was burned in the roof, but besides this no damage was done. The fire was started from sparks from the kitchen stove where the women were canning fruit.

A wheat stack belonging to Clel Vanfosson was struck by lightning last Friday night during the severe electrical storm and was burned.

GUILFORD TIMES.

Rev. E. O. Lockhart was driven to Conception Junction Monday morning by W. D. McClanahan, and from there he took the Wabash to Fayette, Mo., where the M. E. Church South Conference is being held. He will remain some seven or eight days altogether.

Noah A. McCauley has closed out his restaurant stock Friday, selling to C. N. Hassler all his groceries and to Allbright & Severs his confectionery line. Saturday he had a sale on his novelty stuff, but sold only a portion of what he had on hand.

The second annual W. C. T. U. picnic, which was held August 22, was a decided success, both financially and socially. The temperance lecturer, Mr. C. J. Hall, who spoke, is one of the best in the United States. This union was lucky to get him. He is sent to various states by the national temperance association. After this address and a few other numbers, the Lafayette W. C. T. U. put on a silver medal contest, in which Miss Rose Potts won the medal, on the selection, "A Modern Betsy." The next meeting of the W. C. T. U. will be the yearly election of officers and all memmbers are urged to be present. It will be at the home of Mrs. Laura Thompson, September 14.

HOPKINS JOURNAL.

On account of the work of installing a new heating plant in the school building, school will not open next Monday and the board does not know at this writing just when it will open—perhaps not for two weeks yet.

During the chautauqua this week and during the picnic some of the Hopkins young people will serve ice cream and lemonade and sell peanuts and popcorn at the Wray real estate office for the benefit of Mrs. Connet, the blind lady.

One day last week William McMaster and Wallace Jackson came near having a head-on collision with their autos at the top of the state line hill north of town, the weeds by the side of the road and the tall corn in the adjoining field making it a very dangerous turn in the road. Charley Miller's attention was called to this fact after the near-accident, and instead of getting mad and going up into the air like a broncho, he not only cut the weeds by the road side, but also several hills of corn in his field, and a danger signal is no longer necessary at this corner. We hope others will follow his good example until every dangerous turn in the roads will be remedied.
